

Update on the August Weekend Warriors event

Hello all!

David E., Todd R., Jim Casper and I had a great weekend working at Augusta Butler's house. With the help of "Reese", the ceiling drywall lift that Reese Brewer loaned us, we were able to install ceiling drywall in three rooms. Jim's plan is to have the at least the rest of the kitchen and maybe the bathroom done next weekend, so that cabinet work can be started in those rooms. We got to drive around the neighborhood, and Augusta was real pleased that her neighborhood is really coming back.

As I noted in the previous email, there was a great turnout at the 2nd annual UU Katrina remembrance dinner a week or so ago, where the Greater New Orleans UUs (GNUUs) gave a beautiful award to our church for it's help over the last two years. The award was hand made by a local NOLA artist... there's a little red battery-powered light that flickers when it's turned on... neat!!
